4K Ultra HD Panel / 4K UI The 4K Ultra HD picture quality ensures perfect colour and rich details in all possible surroundings. In addition to the 4K screen as always, we bring a 4K user interface for the GoBoard. With the 4K UI, we can use this clear and bright screen to provide the most beautiful imagery. Smart Power A built-in ambient light sensor automatically adjusts the screen brightness according to current light conditions. This display is Energy Star certified to help you protect the environment and save costs. Google Integration With Google Education, GoBoard enables users to easily access Google applications such as Google Classroom, Google Chrome, Play Store, Gmail, Google Drive, Google Docs, etc. This helps teachers save time managing their classroom and assignments. Smooth and Speedy Processing Further system upgrade! With Android 13.0 system and user-friendly interface, the open Android 13.0 platform not only guarantees smooth processing, but also supports the installation of Android-based applications. Smart whiteboard GoBoard uses high-level touch to restore natural writing habits by enabling pen-to-writing, cap-erasing, finger moving objects and palm erasing, while also providing teachers and students with a wide range of teaching tools such as protractors, triangles and rulers. Wireless transmission GoBoard supports Webcast, Meucast, DUNA, USB-C & -A dongle transfer, HisenseShare, etc. Dual WiFi modules simultaneously support a screen-sharing hotspot and Wi-Fi network connection. With low image latency, you'll enjoy a faster, more stable connection, and a superb screen-sharing experience. Dolby Atmos Movies, TV shows, sports, music – the entertainment you love is even better when you hear it in Dolby Atmos. Its crystal clarity, easy-to-hear dialogue, great detail, and realistic surround-sound effects all come together to dial up the impact of your favourite scenes and events. Eye comfort Certified by TÜV Rheinland, Hisense GoBoard has been proven to effectively protect your eyes by reducing the blue light ratio, even after long times looking at this screen.

Digital Signage							
	HSN-100BM66D	Digital Signage	100BM66D	100	100" UHD/500 nits/ 7*24/ Android 9.0	3 Years Onsite	171,200.-
Wireless Screen Sharing Everything you need for screen sharing solutions. Hisense Share is an in-house built-in screen sharing application that enables the screen sharing seamlessly and seamlessly from any devices, anytime, anywhere. Landscape & portrait Supports both landscape and portrait orientations. Providing you with endless creative and functional possibilities to fulfil your commercial or informative goals. Round-the-clock operation Designed with dual-core System on Chip (SoC) technology, 8bit series is a reliable digital signage for presenting both offline and cloud-based content without disruption or downtime. 4K Ultra HD Delivers superior resolution that allows more details to be displayed on an image. The materials, the textures, the site texture and the backgrounds everything is richer and more realistic. Smart Power A built-in ambient light sensor automatically adjusts the screen brightness according to current light conditions. This display is Energy Star certified to help you protect the environment and save costs. Content Management System Vuesonic is a cloud-based digital signage software solution which is flexible, cost-effective, and scalable in its nature. This will give you the freedom to add content as often as you'd like and make sure it looks great across all devices. 500 nits With 500 nits maximum brightness the display panels can deliver amazingly vivid imagery anywhere during daytime and nighttime conditions. Anti-Glare Coating Offers higher haze value that helps with reflections without notably affecting the image quality.
